

Patricia K. Coyle, MD

Patricia K. Coyle, MD, is Professor and Vice Chair (Clinical Affairs) in the Department of Neurology, as well as the Director of the Multiple Sclerosis (MS) Comprehensive Care Center at the Stony Brook University Hospital in Stony Brook, New York. She received a BS degree

with highest honors from Fordham University in the Bronx, New York, and earned a medical degree from the Johns Hopkins School of Medicine, where she was elected to Alpha Omega Alpha Honor Medical Society. While at the Johns Hopkins School of Medicine, she completed a residency and served as chief resident in neurology, followed by a two-year fellowship in neuroimmunology and neurovirology.

Board certified in psychiatry and neurology, Dr. Coyle has established a respected research laboratory, in

addition to a busy clinical practice at the Stony Brook University Hospital. She is recognized as a leading expert on MS and neurologic infections. Her areas of expertise include Lyme disease, cerebrospinal fluid, therapeutics, neuroimmunology, and fatigue. She has received research grants from prestigious organizations including the National Institutes of Health.

Currently, Dr. Coyle is involved in a number of therapeutic trials testing new immunotherapies for MS, as well as studies addressing neurologic aspects of Lyme disease. In addition to her demanding clinical and research pursuits, she has held active leadership positions in a number of national and international organizations and academic societies, including the American Academy of Neurology, American Neurological Association, and the National MS Society. Dr. Coyle also is a Director of the American Board of Psychiatry and Neurology.
