

Jonathan E. Howard, MD

Jonathan E. Howard, MD, graduated from the University of Southern California - Keck School of Medicine, and completed a dual residency in both neurology and psychiatry at the New York University Langone School of Medicine and Bellevue Hospital, the oldest hospital in the US.

After residency, Dr. Howard completed a fellowship in multiple sclerosis (MS) at the New York University Multiple Sclerosis Care Center. Currently, he is an Assistant Professor in the NYU Medical Center Departments of Neurology and Psychiatry.

Dr. Howard also is the Director of the Neurology Service at the Bellevue Hospital Center and Clerkship Director of Clinical Neurological Sciences. He fervently believes that it is just as important to treat the mind as the body, especially in chronic neurological illnesses such as MS. Dr. Howard is writing textbooks for medical students using modern media to educate about the brain and neurological disorders.
